

International Conference on Noise and Fluctuations

Taormina Excelsior Palace Hotel - 17-20 June 2025

Call for sponsorship

The International Conference on Noise and Fluctuations (ICNF) is a biennial event running since 1968.

The last 10 conferences in this series were organized in Prague (2003), Salamanca (2005), Tokyo (2007), Pisa (2009), Toronto (2011), Montpellier (2013), Xi'An (2015), Vilnius (2017), Neuchatel (2019) and Grenoble (2023).

The aim of this biennial conference is to bring together specialists in fluctuation and noise phenomena from different fields in science, engineering and business, including material, electronic and optoelectronic devices, sensors, systems and nanostructures, analog and digital circuits and systems, complex systems, biological and biophysical systems, social and financial systems, reliability, to address both fundamental and applied issues.

Companies interested in contributing to the conference organization are very welcome. This is an excellent and exciting opportunity to connect with worldwide leading researchers in the field of noise and fluctuations and to demonstrate your latest innovations.

Two sponsorship modalities are available
